## Honored Educators at Graduation

Parents and Guardians, if you have a senior student that will be graduating in May 2020, please consider having your student select an Honored Educator at Graduation. The graduating class of 2019 was the first class of seniors who had the opportunity to select an Honored Educator at Graduation. Below is the list of educators selected by the students to attend the graduation as an Honored Educator. Basically, all seniors were given the chance to select one teacher, coach, administrator, counselor, or school secretary as the educator that had the greatest impact on their educational careers and life. Seniors could select someone from either their elementary or junior high or high school years. Below is the list of Honored Educators at Graduation for the 2019 graduation ceremony. Your student will receive information about this opportunity to nominate someone early in the school year for the graduation in May of 2020. Once we have the list of educators selected by the students, we contact the educator inviting them to the graduation ceremony. The Honored Educators sit right on the field at Modesto Junior College with the graduates. Please be watching for this opportunity!

### Modesto City Schools—Permissible School Fees, Fundraising And Donations

The following are specific exceptions to the prohibition on fees, charges and deposits at the kindergarten through 12th grade level. These fees, charges and deposits are legally permissible because they are specifically permitted by law.

1. Charges for optional attendance as a spectator at a school or District sponsored activity.
2. Charges for food served to students, subject to free and reduced price meal program eligibility and other restrictions specified in law.
3. Paying the replacement cost for District books or supplies loaned to a student that the student fails to return, or that is willfully cut, defaced or otherwise injured, up to an amount not to exceed \$10,000.
4. Fees for field trips and excursions in connection with courses of instruction or school related social, educational, cultural, athletic, or school band activities, as long as no student is prevented from making the field trip or excursion because of lack of sufficient funds.
5. Medical or hospital insurance for field trips that is made available by the school district.
6. Charges for required medical and accident insurance for athletic team members, so long as there is a waiver for financial hardship.
7. Charges for standardized physical education attire of a particular color and design, but the school may not mandate that the attire be purchased from the school and no physical education grade of a student may be impacted based on the failure to wear standardized apparel "arising from circumstances beyond the control" of the student.
8. Charging for the parking of vehicles on school grounds.
9. Charges for the rental or lease of personal property needed for District purposes, such as caps and gowns for graduation ceremonies.
10. Fees for school camp programs, so long as no student is denied the opportunity to participate because of nonpayment of the fee.
11. Reimbursement for the direct cost of materials provided to a

student for property the student has fabricated from such materials for his/her own possession and use, such as wood shop, art, or sewing projects kept by the student.

12. Reimbursement for the actual cost of duplicating public records, student records, or a prospectus of the school curriculum.
13. Fees for transportation to and from school, and transportation between school and regional occupational centers, programs or classes, as long as the fee does not exceed the statewide average nonsubsidized cost per student and provided there is a waiver provision based on financial need.
14. Fees for transportation of pupils to places of summer employment.
15. Tuition fees charged to pupils whose parents are actual and legal residents of an adjacent foreign country or an adjacent state.
16. Tuition fees collected from foreign students attending a District school pursuant to an F-1 visa, equal to the full unsubsidized per capita cost of providing education during the period of attendance.
17. Fees for an optional fingerprinting program for kindergarten or other newly enrolled students, if the fee does not exceed the actual costs associated with the program.
18. Fees for community classes in civic, vocational, literacy, health, homemaking, and technical and general education, not to exceed the cost of maintaining the community classes.
19. Deposits for band instruments, music, uniforms and other regalia which school band members take on excursions to foreign countries.
20. Charges for eye safety devices, at a price not to exceed the district's actual costs, in specified courses or activities in which students are engaged in, or are observing, an activity or the use of hazardous substances likely to cause injury to the eyes
21. A family may be charged for a program of supervision of children before and after school.
