Principal's Message

Greetings Parents, Students, and Community Stakeholders!

As our school year is coming to an end, I would like to congratulate our seniors who will be graduating and starting their next chapter on this journey called life! Graduation day is May 20th at 8:00am at the South Florida Fairgrounds. We are also in our final stretch of testing. So please continue to show up and do your very best. As always, I would like to thank each of you for a great but challenging school year. This year has truly been like no other. However, we made it work and every day we put our best foot forward to educate, affirm, and inspire.

We've all been through a lot this school year and the one issue that keeps reoccurring is mental health. May is Mental Health Awareness Month. The goal is to raise awareness about mental illness and to reduce the stigma that surrounds it. Now is a good time to pause, reflect, and seek help, if needed. Remember, you are not alone.

I look forward to everyone returning in the Fall and having a fresh start. Once again, thank you for bringing your best everyday here at Atlantic.

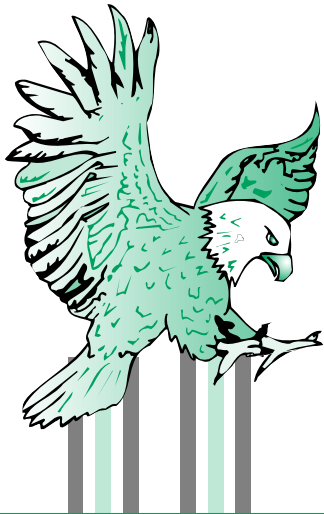

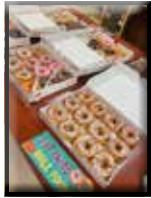

Parents and students, please remember that school starts on August 10, 2023. So, with that being said, make sure you enjoy your Summer and take some much-needed time for yourself.

Principal Edwards

Teacher Appreciation

May 8th – 12th is Teacher Appreciation Week. We have a week-long celebration planned for our teachers. To start off, they can shop at the Eagle Mart Market and then head over to the donut extravaganza. We will shower them with love and appreciation for all they do year long.

Sunshine State Scholar Winner

Atlantic junior Matthew Cai was introduced to the Palm Beach County School Board at Wednesday night's board meeting as a Sunshine State Scholar winner. Matthew will represent Palm Beach County at the Sunshine State Scholar Recognition Program in less than two months in Orlando, April 13-15.

Each of Florida's school districts selects their top 11th grade students in the areas of Science, Technology, Engineering or Mathematics (STEM). The two-day program honors each scholar for their significant academic accomplishments and celebrates the potential they represent for our communities and state. Sunshine State Scholars will be recognized by the Commissioner of Education and the Senior Chancellors and representatives from Florida's colleges and universities.

Matthew distinguished himself in mathematics and science. His selection was based on his academic and extracurricular history and the results of a video he submitted related to his future plans, academic passion, challenges, and his other STEM-related activities/competitions.
