LHS Parents, Guardians, and Students;

We would like to thank our parents, students, and teachers for a successful and safe first semester of the 2019-2020 school year. We had many achievements during the fall semester that culminated with some very successful EOC results. As you read this letter, we are nearly five weeks into our second academic semester and your students should be well settled into their new classes.

LHS congratulates our 2020 STAR Student Abigail Lassiter. The STAR student each year is the graduating senior who has achieved the highest score on the SAT in his/her graduating class. Abigail's composite SAT score this year is 1560, and she has selected her Advanced Placement Calculus teacher Don Wisdom as her STAR teacher. This is a great accomplishment for both Abigail and Mr. Wisdom.

Parents, I encourage you to stay up to date on your student's grades and progress in their classes. I also encourage you to stay in contact with their teachers for updated class information and tips on how you can help them be successful in class. Finally, I urge our senior parents to continuously cheer your seniors toward May 21 and graduation. It will be here very soon, and we want all of our seniors to be able to see their success on that day.

There will be paper order forms in the LHS front office if you cannot order online, and they must be turned in by 8:00 am on Wednesday mornings. An email will be sent to all seniors with a copy of the form.

STUDENT OF THE SEMESTER

Student of the Semester is a special opportunity to recognize those students who have excelled in the classroom. Two times during the school year, teachers are asked to identify one student from their classes who stands out above the others for any number of reasons. Some teachers will choose a student who has made great academic strides during the semester. Others may choose a student who has been particularly helpful, intellectually engaging, or perhaps, the one who went out of his or her way to make every day a special day at Loganville High School.

During the ceremony, a citation written by the teacher about each individual student is read before the assembled students, parents, and loved ones. In recognition of their efforts, students also receive a special certificate.

Each of the students below was recognized as Student of the Semester for first semester:

Recommendations:

Many college and scholarship applications require a counselor and/or teacher recommendation. LHS TECHNOLOGY STUDENT ASSOCIATION

Hello to the LHS community! The Loganville chapter for the Technology Student Association (TSA) recently hosted a Video Game Night in collaboration with our school's own Classic Games Club, held in room D504. The turnout was spectacular, and everybody had a blast trying out the variety of games available.

In other news, with the State Leadership Conference coming up in March, our main TSA teams have begun work on the major event submissions with upcoming deadlines, including 3D Animation, Transportation Modeling, and Digital Video/Photo Production, just to name a few. As the saying goes, the early bird catches the worm! State Leadership will also be our chance to gain entry into the TSA National Conference, so our chapter will be giving it our all during this event!
