Message From The Principal

Greetings Chief Family!

I cannot believe the month of February is here! The second semester of the school year is off to a great start in Chief Country!

This is a very important time of the school year. We are preparing for this year's upcoming state assessments (EOCs and FAST), AP/AICE, CLT and school-day SAT for our 11th graders. Seniors who have not met their reading requirement for graduation will be able to take the SAT to achieve a concordant score. The SAT will be administered to all 11th grade students and select seniors in need of their reading requirement for graduation on Wednesday, March 6, 2024 at 7:30 a.m.

In preparation for the upcoming assessments, there will be many extended learning opportunities for students to get support if needed. Please encourage your student to attend and take advantage these opportunities provided by our teachers.

Course selection time is underway for students in grades 9-11. Students must return their forms by February 16, 2024.

In addition, students are expected to arrive on time to school on time every day. While on campus, it is imperative students follow all school-wide expectations and safety protocols. Also, parents if you drop your student off to school each day please use parent drop off on Hypoluxo Rd. Student drop off is strictly prohibited on Chief Way and Lawrence Rd. This is a safety issue if students are not dropped off and picked up at the designated location. Your cooperation with this request is appreciated.

For planning purposes, spring break will be March 18 – 25, 2024. Students return on Tuesday, March 26, 2024.

Also, please mark your calendar for our graduation ceremony is scheduled on Tuesday, May 14, 2024 at the South Florida Fairgrounds.

Please read through our newsletter thoroughly and do not hesitate to contact me should the need arise.

Sincerely,

Tameka Robinson
Principal

FEBRUARY 2024

FREE: Paper 24/7 Tutoring Access for Students

The School District of Palm Beach County has partnered with Paper to provide unlimited access to trained tutors so every student can ask questions, work through problems, and grow their confidence—at no cost to families.

Paper is an online, on-demand tutoring service that provides students with unlimited, 24/7 academic support. Whether they're stuck on homework, studying for a test, or need someone to read and make suggestions for their writing, there will always be experts available online to assist students one-on-one in all subject areas and in more than 4 languages. Paper tutors have been specially trained to conduct expert, academic support in a secure, chat-based platform. With a commitment to helping students learn, they'll never give students answers, but rather facilitate deeper learning by asking guiding questions and providing timely encouragement.

Live chat: Students have 24/7 unlimited access to high-quality individualized tutoring via chat. When students hit a stumbling block on an assignment, they can connect with a tutor in under a minute and ask any academic question, any time across all subjects and in multiple languages. Students simply type in their question, upload a file or draw out the problem on the whiteboard.

Writing feedback: Students can receive feedback on their writing assignments to strengthen their writing skills. They can upload any type of written work to receive revisions from tutors within 24 hours. During the revision process, tutors highlight areas the student can improve and explain why, focusing on writing elements such as content, organization, citations and grammar.

Attendance

Did you know?

- Chronic absenteeism means missing 10% (about 18 days) or more of school days in a year.
- Missing 10% of school days can make it harder to learn to read.
- Students can fall behind if they miss just a day or two days every few weeks.
- Students who are chronically absent are less likely to succeed academically and more likely to drop out of school.

Missing 2 days of school per month from Kindergarten - 12th Grade

- = 108 hours per year
- = 11 months
- = over 1 school year lost

Parents and Families Should:

1. Make getting to school on time everyday a high priority in your family.
2. Talk with your child about the importance of school attendance from an early age and the negative effects of too many absences.
3. When necessary, create a safe space for your child to share what's keeping them from participating in school on a regular basis.
4. Have a back-up plan for getting your child to school when there are difficulties with transportation, family illness, or other challenges.
5. Schedule doctor and other appointments for after school hours whenever possible.
6. Monitor students' school attendance to make sure your child is in class every day.
7. Contact your child's school to discuss supports and services that can help your child maintain regular school attendance.

Benefits of Mental Health & Wellness

What is Mental Health?

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.

We take care of our physical health by learning the importance of diet and nutrition, sleep habits and physical exercise. Maintaining good mental health is just as important. Learning strategies to cope with life's challenges, decrease stress, and increase mindfulness are ways to help maintain mental health.

Prevention works. Promoting the social-emotional well-being of children and youth leads to:

- Higher overall productivity.
- Better educational outcomes.
- Lower crime rates.
- Stronger economies.
- Lower health care costs.
- Improved quality of life.
- Increased lifespan.
- Improved family life.

Over the course of your life, if you experience mental health problems, your thinking, mood, and behavior could be affected. Many factors contribute to mental health problems, including:

- Biological factors, such as genes or brain chemistry.
- Life experiences, such as trauma or abuse.
- Family history of mental health problems.

Mental health problems are common but help is available.

Friends and loved ones can make a big difference. Only 44% of adults with diagnosable mental health problems and less than 20% of children and adolescents receive needed treatment. Friends and family can be important influences to help someone get the treatment and services they need by:

- Reaching out and letting them know you are available to help.
- Helping them access mental health services.
- Learning and sharing the facts about mental health, especially if you hear something that isn't true.
- Treating them with respect, just as you would anyone else.

All of the district school campuses have mental health professionals that can assist. Please reach out to a School Counselor, School Psychologist, or School Behavioral Health Professional at your nearby school. They can connect you to school and community resources.

School District Palm Beach County Mobile App

Everything you want to know about your child's school experience can now be found anytime, in one convenient place. The School District of Palm Beach County's mobile app can access a variety of information such as the District's approved calendar.

It also includes the ability to make school payments or get push notifications containing important news.

Parents can see their child's scheduled school lunch menu with pictures and nutritional values, sign up for Free and Reduced Lunch meal plans, and check account balances.

Additionally, parents can locate their assigned bus route and get directions using a Google Map that shows all of the District schools.

Boys & Girls Club Entrepreneurship

On January 20th, the Boys & Girls Club (BGC) engaged in entrepreneurial activities focused on beauty, cosmetics, and personal care. The students were given the opportunity to participate in these activities, during which they learned how to launch a business and the essential requirements for starting their own ventures. Leading the participants was an 18-year-old young lady named Nyla Talisa, who led the entrepreneurship program and also serves as the CEO of Rare Breed Cosmetics. Rare Breed Cosmetics is dedicated to empowering women and teaches them how to build a business from the ground up.

BGC is a positive place for children. The mission of the Florida Alliance of Boys and Girls Clubs is to raise and sustain statewide funding for member organizations to help them enable all young people, especially those who need us most, to reach their full potential as productive, caring, and responsible citizens. Students are provided with real-life experiences such as sports enhancement, entrepreneurship, and college experiences.

BGC is a safe space for students from all backgrounds. Everyone is welcome to the Boys & Girls Clubs! Applications can be picked up in the guidance office.
